#### Published data & Specifications

The following data is published daily for every country region :

#### LNG Inventory

Aggregated amount of LNG in the LNG tanks, in **10<sup>3</sup> m<sup>3</sup> LNG**;  
 = **LNG inventory existing at the end of the previous gas day**  
 published on the platform with 2 digits after the decimal point

#### Daily Send-Out

Aggregated gas flow out of the LNG facility, in **10<sup>6</sup> m<sup>3</sup> NG**  
 = **Send-Out of the previous gas day**  
 published on the platform with 2 digits after the decimal point  
 (m<sup>3</sup> being expressed at 0°C and 1 013 mbar)

#### STATUS

☿C = all data confirmed / ☉E = estimated values used for missing or inconsistent data

#### Maximum LNG Storage Capacity

Expressed in **10<sup>3</sup> m<sup>3</sup> LNG** (this is also published daily)

#### Nominal Daily Send Out

Expressed in **10<sup>6</sup> m<sup>3</sup> NG** (this is also published daily)

Nominal daily send out should be defined as the nominal annual send-out capacity divided by 365

## LNG Data Platform Information

### GLE - LNG Data Platform

GLE is pleased that its members have agreed on a voluntary basis to publish aggregated operational data regarding the operation of the EU LNG terminals on a daily basis, grouped by country areas. This information is provided in an aggregated format to guarantee that commercially sensitivity information is not disclosed. GIE are therefore unable to further comment on any specific member, country or area. For non-data related information, please contact the GIE Secretariat at [gie@gie.eu](mailto:gie@gie.eu).

Publication of Daily operational LNG Inventory by country

### Contributing LSO

Below you can find the list of LSOs contributing to the aggregated data of each Area.

### GLE - Gas LNG Europe

GLE (Gas LNG Europe) is one of the three columns of the European association of infrastructure operators GIE (Gas Infrastructure Europe). GLE represents LNG Terminal Operators and voices the interests of its members vis-à-vis the European Union institutions, regulatory bodies and other stakeholders.

As a separate column of GIE (the umbrella association representing also Transmission and Storage operators, i.e. GTE and GSE), GLE currently gathers **14 European LNG terminal operators from 9 countries**, representing about **90% of all the existing LNG regasification capacity in Europe**. This provides GLE with a strong voice in the European arena.

**Thank you for your attention.**
